About HENRY

Childhood experiences last a lifetime - so every child deserves the best possible start in life. And although parents want a happy healthy future for their children, family life isn't always easy. We make sure families get the support they need so that they and their children are able to flourish throughout childhood and beyond.

HENRY is the leading national provider of evidence-based services to support a healthy start. We are currently working in partnership with NHS trusts, public health teams, children's services and other partners in around 40 local authorities. We support parents to transform family life for the better in all sorts of ways – including emotional wellbeing, family relationships, parenting skills, infant feeding, the home learning environment, improved nutrition and getting more active.

Our service offer

- Training for practitioners, equipping them with the confidence, understanding and skills to create the conditions for positive change in their work with families
- Family support services, including a wide range of workshops, group programmes, individual support, resources and online help
- Creating healthier communities through volunteering and supporting a healthy start in childcare settings

Our values

- **Partnership:** parents are the experts in their own family so we start with their experience and support them to make changes that they believe will lead to a healthier and happier life.
- **Strengths-based:** we acknowledge and build on all the things that are going well, fostering hope and self-belief.
- **Person-centred:** families face different challenges - we get alongside families and listen, building a relationship based on trust and empathy.
- **Respect:** we value families for who they are and seek to understand rather than judge.
- **Inclusive:** we find out about the difficulties that some families face in accessing support and work proactively to overcome barriers.
- **Excellence:** we strive to provide families with high quality and effective support, using reflective practice, evidence and feedback to improve our services.
